Form to update the
Course Catalog

The diagram illustrates a database schema for a course system. It consists of a single table with the following columns:

- Course Name
- Course Number
- Room
- Slot
- Add Course
- Remove Course

Arrows indicate the relationships between the columns and the table structure:

- An arrow points from the 'Course Name' column to the 'Course Number' column.
- An arrow points from the 'Course Number' column to the 'Room' column.
- An arrow points from the 'Room' column to the 'Slot' column.
- An arrow points from the 'Slot' column to the 'Add Course' column.
- An arrow points from the 'Add Course' column to the 'Remove Course' column.
